SOFTWARE ENGINEER

Experienced in Ruby on Rails and JavaScript based programming with a background in physics and math. Focused on solving problems and finding solutions through code. I bring strong skills in collaboration and communication to build full stack web applications.

TECHNICAL SKILLS

React.js, JavaScript, HTML, CSS, Ruby, Ruby on Rails, SQL, Git, GitHub, and Matlab.

TECHNICAL PROJECTS

Recipe Finder – [Github Frontend](#) [Github Backend](#) | [Demo](#)

Recipe Finder app, search for recipes and filter to include specific ingredients – individual project.

- Created a single page application with a React frontend and a Rails backend.
- Connected with an external API to fetch and update information.
- Built search feature to grab specific recipes based on the user's search input.
- Applied JWT authorization (sign in) to have full access to the application.

Note Taker - [Github](#) | [Demo](#)

App for note taking, organizing, and task management – individual project.

- Created a single page application with a React frontend that communicates with the Rails backend.
- Assembled full CRUD through fetch requests and setting state on React frontend.
- Built filter and sort features to reorganize notes.
- Transferred and update state throughout multiple components.

Breakout - [Github Frontend](#) [Github Backend](#) | [Demo](#)

Recreation of Atari's classic arcade game Breakout – group project.

- Built a single page application with a JavaScript frontend.
- Developed a Rails API backend that communicates with the JavaScript frontend.
- Utilized Canvas, getContext(), and setInterval() methods to express animations throughout the game.
- Designed event handlers to show proper gameplay mechanics.

EDUCATION

Flatiron School

Software Engineering Bootcamp

Seattle, WA

08/2020 - 12/2020

- JavaScript, React.js, Ruby, and Ruby on Rails programming to create full stack web applications.

University of Washington

Bachelor of Science

Seattle, WA

09/2016 - 06/2020

- Bachelor of Science (B.S.) in Earth and Space Science (Physics focus) and Physics Minor.
- Dean's list recipient.
- Event planning chair for my social club.

EXPERIENCE
